- I am a **Postdoctoral Researcher** at Prof. Luc Van Gool's computer vision group at ETH, Zürich.
- I did an 8-month internship at **Disney Research, Zürich**, under the supervision of Dr. Aljoscha Smolic.
- I collaborated with the **startup Fezoo.cat**.
- Always looking for new challenges for the future. Do you have something in mind?

- I received a **Mathematics** degree, a **Telecommunication** engineering degree, and a **Master´s** degree from UPC Barcelonatech.
- I have a **PhD in Computer Vision**, supervised by Prof. F. Marques.
- I visited Prof. Jitendra Malik's vision group in **UC Berkeley**, supervised by Dr. Pablo Arbeláez.

- Give me the **STL** library and a **VCS** repository on which to store the **C++** code, and I shall move the world. Or was it about levers? ツ
- I use **Python** and **Matlab** for fast prototyping and testing.
- I cannot sleep at night if I have not committed my code or if I have not done enough **unit tests**.

- El **català** és la meva llengua materna.
- Hablo **español** como lengua materna.
- My **English** is proficient.
- Je parle un peu **français**.
- Ich beginne **Deutsch** zu lernen.
